

# FUEL

your career

You would be surprised at what types of jobs might utilize green skills...including yours!  
Here are four green categories that your job might fall under:

## Renewable Energy

Producing energy using renewable resources and/or providing services that support production, storage and transmission of renewable energy

## Clean Manufacturing

Manufacturing products that support green activities and/or reducing production waste and environmental impact

## Energy Efficiency

Providing services that effectively reduce the demand for or use of energy services

## Research, Development & Administration

Providing services that contribute to the development, support, awareness, or overall success of improved, cost efficient technologies and practices for green businesses
